

WEIGHT + PROCESSABILITY

GLOBAL CLOSURES PRODUCER

TEQUILA CAP

WHY AVIENT?

Gravi-Tech™ Density Modified Formulation

WHY AVIENT?

- Formulated a 2.5 specific gravity weighted PP material that is FDA approved
- Simplified processing steps and created an evenly balanced closure that was over-molded with a TPE
- Expedited development of material to meet customer deadline

LEARN MORE

KEY REQUIREMENTS

- A weighted material that could be injection molded
- A material with evenly distributed weight
- Suitable for over molding with a TPE to be used as a stopper in a tequila bottle
