AVIENT SOLUTION

Cesa™ WithStand™ Antimicrobial Additives and
Smartbatch™ Combination Colorants and Additives

WHY AVIENT?

- Seamlessly incorporated multifunctional additives for optimal performance in reducing microbe growth
- Developed custom formulation for complex processing configurations in sheet extrusion technology
- Provided expertise in antimicrobial performance, chemical resistance, flame retardance, and regulatory product stewardship

LEARN MORE

KEY REQUIREMENTS

- Decrease growth of microbes on plastic surfaces that come in contact with food products
- Compatibility with sheet extrusion processing
- Maintain all other functional attributes inherent to product, such as ROHS, flame retardant standards, and specific brand color
