

METALLIZATION COMPATIBILITY

LUXURY PACKAGING PRODUCER

PERFUME CAP

AVIENT SOLUTION

Gravi-Tech™ Density Modified Formulation

WHY AVIENT?

- Reduced development and lead time by providing an off-the-shelf material compatible with electroplating
- Improved speed to market by supporting customer through molding and galvanization trials
- Provided molding expertise, enabling the full assembly to come together despite PP related shrinkage
- Expedited speed to market with 3D print prototypes for early design evaluation

KEY REQUIREMENTS

- Replace ABS
- Reach specific part weight
- Enable electroplating with different processes and colors
- Grey base color to easily identify defects
- Consolidate raw material inventory with a material that can be used across on multiple projects
